

# Critical Runtime Error Fix Verification

## Deployment Test

**Abstract**—This document tests all the critical runtime error fixes to ensure the IEEE generator works correctly on Vercel deployment. It includes sections with text, images, tables, and references to exercise all code paths that previously caused crashes.

**Index Terms**—deployment fixes, runtime errors, IEEE generator, Vercel compatibility

### 1. TEXT PROCESSING TEST

### 2. IMAGE PROCESSING TEST

### 3. TABLE PROCESSING TEST

### REFERENCES

This section tests the `add_formatted_paragraph` function to ensure it doesn't cause `NameError` crashes.

This section contains text followed by an image to test figure numbering.

[1] Test Reference 1. (2024). Sample reference for testing purposes.

[2] Test Reference 2. (2024). Another sample reference to test alignment.
